MAIN CHARACTERISTICS

The municipality of Bragança is situated in the northeast of Portugal and, with 49 parishes, is one of the biggest in the country. This plan consists in reinforcing the image of the city of Bragança as a: center of innovation, a regional pole, an international link, a centre of support for services and commercial and cultural centre; consolidating the public facilities and infrastructure and qualification of public spaces in rural areas, providing more competitiveness to attract new inhabitants; and providing economical value to the traditional products and resources, the natural heritage, culture and landscape, and promoting the exploration of its endogenous potential.
